

Caitlin is a Palm Beach, Florida native where she grew up playing volleyball. She has college playing experience at the D2 and D1 level playing indoor and beach volleyball. She finished up her playing career at Florida State University while getting her Master's Degree in Sport Management. After college, she stayed at FSU as an assistant with the Indoor Volleyball team. After 4 years Caitlin moved back to South Florida to run the volleyball program at a private school in Boynton Beach while running her own volleyball club. She moved to Charlotte this year to continue her coaching passion at Charlotte Latin School and is excited to be with CUVC for her first year in NC. Caitlin has played professional beach and indoor volleyball over the last 10 years and continues to compete professionally in beach volleyball.

We met Caitlin in September and during the interview process we had such a blast just talking volleyball and gym culture. Even though her experience and love of the game was more than enough to convince us to make her a premier team coach, we were even more excited and more convinced that she was a great fit when she came back for a follow up meeting and said, "Regardless of where you see me coaching, and whether it's a head or assistant position, I want to be a part of what you are doing at CUVC." Help us welcome Caitlin to this great staff this year!
